

Supplement Facts

Serving Size: 2 Stick Packs

Servings Per Container:	Amount Per Serving	% Daily Value	Servings Per Container: 30	Amount Per Serving	% Daily Value
VITAMINS					
Vitamin A (as natural beta carotene)	5,000 IU	1000%			
Vit C (as USP ascorbic acid)	1,000 mg	1667%			
Vit D 3 (as cholecalciferol)	1,000 IU	250%			
Vit E Succinate D-alpha (natural)	200 IU	667%			
Vit K1 (1% Phytanadione)					
(70 mcg Phytanadione)	70 mcg	88%			
Vit B1 Thiamine HCl	50	3333%			
Vit B2Riboflavin (USP)	50	2941%			
Vit B3 Niacinamide, Nicotinamide (USP)	50	250%			
Vit B6 (98% Pyridoxine HCl, USP)	50	2500%			
Vit B9 Folic acid 97% B9	400 mcg	100%			
Vit B12 (1% Cyanocobalamin)	50 mcg	833%			
Biotin	300 mcg	102%			
Pantothenic Acid (d-Calcium Pantothenate)	60	600%			
MINERALS					
Calcium Carbonate Ca	200	20%			
Iodine (as Potassium Iodide 97%)	100 mcg	66%			
Magnesium Glycinate	100	25%			
Zinc picolinate (20% Zn)	15	100%			
Selenium from L-selenomethionine	40 mcg	57%			
Copper gluconate 14% Cu	3	150%			
Manganese gluconate	2	100%			
CELLULAR REJUVENATION COMPLEX					
	293.23 mg				
A proprietary blend of:					
Chromium Complex	200 mcg	166%			
Potassium Chloride	52 mg	3%			
Potassium Phosphate Di-Basic	51 mg	3%			
Molybdenum Aspartate	37.5 mcg	50%			
QuercitinDihydrate 95% (Sopora japonica Flower Bud PE)					
RNA Ribonucleic Acid					
Lutein (from Marigold flower, 5% Xanthophylls)					
ANTI-INFLAMMATORY PROTECTIVE COMPLEX 435 mg *					
NanoHC3 (Curcuma longa)					
Citrus Bioflavonoids 25%					
Choline Bitartrate 97%					
Inositol					
Amla PE (Phyllanthusemblica) 45% Tannins					
Rutin (Sophora Japonica Flower Bud PE)					
CARDIOVASCULAR COMPLEX 520 mg *					
A proprietary blend of					
Omega 3 Fatty Acids (25% ALA)					
Policosanol 98% (50% Octacosanol)					
Maca Root PE (0.6% Glucosinolates)					
ANTIAGING RENEWING COMPLEX 365 mg *					
A proprietary blend of					
Resveratrol 50% (Fallopia japonica root PE)					
Co-Enzyme Q10					
Carotenoids, mixed 20%					
SUPERFOOD REBUILDING COMPLEX 2.31G *					
A proprietary blend of					
Kelp (Macrocystispyrifera)					
Phosphorus					
Spirulina PE (60% Protein)					
Chlorella					
Lactoferrin					
MULTI-ENZYME COMPLEX					
A proprietary blend of					
Amylase	5000 DU	*			
Protease SP	20000 HUT	*			
Protease 2	4000 HUT	*			
Acid Stable Protease	100 SAPU	*			
Bromelain	500,000 FCC PU	*			
Papain	500,000 FCC PU	*			
Invertase	10 IAU	*			
Maltase	50 DP	*			
Cellulase	250 CU	*			
Beta Glucanase	65 BGU	*			
Capitalase	50 BU	*			
Alpha Galacto	50 GALU	*			
Hemicellulase	750 HCU	*			
Xylanase	125 XU	*			
Pectinase	1500 AJDU	*			
Phytase	100 PU	*			
MINERAL DELIVERY COMPLEX 721.5 mg *					
A proprietary blend of					
Betain HCl					
BioPerine® 95% Piperine					
Stevia Rebaudiana Leaf PE (as 90% Steviosides)					
Natural and Raspberry Flavor Energy Blend					
* Daily Value not established.					

Directions: Drink one stick pack in the morning and one at midday with meals. Mix GenKi with your favorite juice. Blend well and enjoy. Do not drink on an empty stomach.

The ZoiVi GenKi is a premium life-enhancing blend of multi-vitamins, minerals, anti-oxidants, anti-inflammatories, super green foods, fatty acids, amino acids, enzymes and herbs.

The ZoiVi GenKi is formulated to:

- Improve energy production †
- Support cellular rejuvenation †
- Improve absorption of nutrients †
- Support cardiovascular function †
- Support healthy immune function †
- Provide powerful anti-aging support †
- Support healthy skin, joints, and bones †
- Enhance natural cleansing and detoxification †
- Combat free radical damage caused by stress †
- Improve gastrointestinal and digestive health †

Consult your physician prior to use if pregnant or nursing.

Complete Your Life

GenKi<sup>TM</sup>  
A Natural Premium Life Product

**NO** Yeast, Wheat, Sugar, Salt, Soy, Dairy, Fish, Animal Derivatives, Preservatives, Artificial Colors or Flavors Added.

GMO-Free | Gluten-Free

Kosher - Halal - Certified Ingredients

This product is manufactured in a GMP-compliant facility regulated by the FDA.

These statements have not been evaluated by the Food & Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

## How are you feeling today?

One of many ways to interpret GenKi in Japanese is simply "feeling well", or more specifically "Healthy". The ZoiVi GenKi means no different. Now more than ever, it is necessary to ensure your body is receiving more than just the necessary vitamins, minerals, that we are no longer able to find in everyday foods.

GenKi is the first truly complete Multi-Vitamin with an exclusive anti-inflammatory, anti-aging, omega, and cellular rejuvenation formula. The ZoiVi proprietary blend consists of our patent pending NanoHC3, Resvera-Z formula, 150 mg of CoQ10, and over 50 other high powered natural ingredients synergistically combined to enhance all of the essential body's functions for optimal health.\*

### How does GenKi work?

GenKi provides a blend of the precise levels of micronutrients recommended by leading nutritional scientists.

The GenKi formula is based on over 2000 years of research in Tibetan Medicinal Systems and Ayurveda.

GenKi provides the optimal nutrition the body requires for optimal health and well-being through a combination of 58 raw pure form ingredients.

GenKi provides the optimal amounts of micronutrients in the most bio-available form that a body can absorb.

## Why MultiVitamin / Mineral supplementation is necessary

It is highly unlikely that our diets alone can provide us with all of the nutrition our bodies require. How many people actually eat an adequate, balanced diet every day or even most days? The optimum diet would be loaded with fresh organic vegetables and fruits, whole grains, low fat dairy and mercury-free fish, skinless poultry and lean meats that are low in saturated fats and cholesterol.

The U.S. Department of Health, Education, and Welfare reported the following:

over 90% of adults have chromium deficiencies

over 60% of adults do not get enough calcium

over 50% do not get enough manganese, B6, and folic acid

over 40% have low zinc intake

over 30% have diets low in vitamins C and A

Many people do not have healthy diets but believe they do. Our commercial habit of growing foods on nutrient-depleted soils, food processing, storing, and cooking reduces the vitamin content of the foods we eat. Alcohol consumption, antibiotics, aspirin, obesity, oral contraceptives, sleeping pills, smoking, and many other factors hinder our ability to obtain enough vitamins for optimal health. Most individuals over age 50 produce less stomach acid to properly digest animal protein, which results in less absorption of B12 found only in animal foods. Vegans are often deficient in B12 because they obtain none from their diet.

World leading medical institution Johns Hopkins found 70% less skin cancer in subjects taking vitamins on a regular basis.

Studies show use of Multi-Vitamin/Mineral supplements improves immune reaction up to 60% in the elderly.

Harvard researchers reported 27% less risk of developing cataracts among those taking vitamins on a regular basis.

It is now generally accepted that heavy accumulation of free radicals that result from our body's metabolism and energy use can damage healthy cells. These agents can contribute to cardiovascular disease, cancer, cataracts, aging, arthritis, and damage to our DNA. This toxic damage can be lessened by antioxidants. The three major antioxidants are vitamin C, vitamin E, and beta carotene.

### What makes GenKi different?

We must first understand the formulation standards many other products in today's markets are based on:

MDR refers to the Minimum Daily Requirement

RDA to the Recommended Daily Requirement

ODA means Optimum Daily Allowance

DV refers to the Daily Value

Where do all these confusing standards come from? The answer is various groups developed recommendations that turn out to be based on unrealistic statistical norms, overlooking individual differences. The minimum daily requirement (MDR) actually refers to the absolute minimum amount one needs of the vitamin, a bare-bones amount that will keep you from getting a vitamin deficiency, such as scurvy from lack of vitamin C.

For good health benefits, it is very important to get at least 100% of the Daily Value (DV) for as many vitamins and minerals as possible, which will give you the bare minimum necessary to prevent major deficiency diseases. However, what about problems resulting from the marginal intake of vitamins--from being close to "running on empty?"

Examples of differences:

Vitamin C: RDA is 85 mg, ODA is 250 - 3,000 mg [GenKi has 1,000 mg]

Vitamin E: RDA is 15 IU, ODA is 50 - 800 IU [GenKi has 120 IU]

Magnesium: RDA is 350 mg, ODA is 400 - 600 mg [GenKi has 400 mg]

Vitamin B12: RDA is 3 mcg, ODA is 10 - 100 mcg [GenKi has 50 mcg]

### GenKi is blended with all of the vital elements needed for total body health:

~ Vitamins - Organic compounds needed to sustain life.

~ Minerals - Essential for growth, nervous system regulation, and blood-glucose stability.

~ Cellular Rejuvenation Complex - Keeps cells healthy and nourished.

~ Anti-Inflammatory Protective Complex - Immune system support against inflammation.

~ Cardiovascular Complex - Supports heart health and brain performance.

~ Anti-Aging Renewing Complex - Promotes skin, hair, nail and cardiovascular health.

~ Super-Food Rebuilding Complex - High in phytonutrients, fiber and helps to heal tissues.

~ Multi-Enzyme Complex - 18 different enzymes for delivery of nutrients to the body.

~ Mineral Delivery Complex - Bio-enhancement blend for improved absorption of nutrients.

The GenKi is formulated with the highest grades and purities of every raw ingredient, without any additives, sugars, or even magnesium stearates, which most products on the market contains. The issue with your everyday multi-vitamin is the lack of effectiveness. Most of the time, it is like swallowing rocks, in one way and out the other. Have you ever heard someone say "I don't feel my vitamins working?" Below is an example of what is happening in their body with their current vitamin product:

The vitamins that are demonstrated in this x-ray are tablets, which can be seen in the large intestine and beyond the point at which they can be absorbed. These pills survived the hydrochloric acid found in the stomach, an acid strong enough to eat through the paint on a car.

### So why GenKi?

Many people use multi-vitamins and supplements without realizing their body is not making any use of it. As a matter of fact, majority of the time when a vitamin pill is swallowed, it ends up in the toilet. Other vitamins simply don't contain enough of the ingredients to benefit the body. That is called "label fluff" in the vitamin industry, just to pretty up the package. How do you expect so much vitamin to be packed in a little pill?

Powder mix instead of tablet pill - Every ingredient blended into the GenKi is of the highest quality, without any chemical additives, fillers or synthetic binding agents.

Since most pills are pressure pressed, coated with chemical binding agents and then sprayed with carnauba wax (also used in automobile and floor waxes) the body struggles to breakdown and absorb the vitamin pill. The GenKi is blended in a pure raw powder form, making it easier for your body to absorb the high quality nutrients, vitamins and minerals as soon as it is consumed.

With zero sugars and natural flavoring, you can enjoy a GenKi blend with your favorite fruit juice. Simply mix in a stick pack and serve, and enjoy!
