

Whether you're a professional athlete trying to stay in peak condition or a busy parent trying to stay lean and healthy while juggling a million things, the ZoiVi EMZ supports healthy digestion, optimal nutrition delivery and so much more. A premium whole food-based enzyme formula, the ZoiVi EMZ offers the only combination of vegetarian enzymes for nutrient breakdown, a digestive health blend, bio-availability blend for maximum absorption, all with a total activity level of over 185,000 units per ONE capsule.

In one breakthrough product, this means when taken with any meal, the unique ZoiVi blend unleashes vital nutrients and optimizes absorption into usable energy to restore and repair the body at the cellular level allowing you to look and feel better than ever. The ZoiVi EMZ blend supports the body's ability to quickly and effectively digest the following:

- Lactose
- Gluten
- Carbohydrates
- and Cooked, Processed or Pasteurized Foods.
- Proteins
- Fats
- Fiber

While there are other enzyme products available, the ZoiVi EMZ is the best performing enzyme supplement available today.

It is clinically proven... the more enzymes you take, the quicker your body can restore, repair and strengthen itself.

A study was done by Dr. Max Wolf, a former Fordham University Professor of Medicine, on 347 patients with circulatory disorders. The results showed 87% of the patients were completely free or almost free of any symptoms after taking enzymes.

Another study found professional fighters on enzymes were able to recover from injury in 7 days, while fighters on placebos took 16 days to recover.

Try your ZoiVi EMZ today and feel the difference right away!

Directions: Take one to two capsule at the start of every meal as desired.

Supplement Facts		
Serving Size: 1 Vegetarian Capsule		
Servings per container: 60		
	Amount Per Serving	% Daily Value
ZoiVi Multi-Enzyme Complex	302 mg	*
Fat and Dairy Enzymes - 3,300 Total activity (Lipase & Lactase)		
Gluten and Protein Enzymes - 160,018 Total activity		
(Exo-peptidase, Protease DDP-IV, Bromelain, & Proteases)		
Carbohydrate Enzymes - 17,850 Total activity		
(Amylase, Glucoamylase, Invertase, Maltase, Alpha-galactosidase)		
Fiber & Nutrient Enzymes - 5,125 Total activity		
(Cellulase, Hemicellulase, Beta-gluconase, Phytase & Xylanase)		
ZoiVi Proprietary Bio-availability Blend	90 mg	*
Bile extract, Black radish (root), Ginger (Rhizome)		
ZoiVi Proprietary Healthy Digestion Blend	65 mg	*
Cinnamon (Bark), Asparagus, Beet (root), Gentian (root), L-leucine		
*Daily Value not established		

Other Ingredients: Non-GMO Rice Flour, Vegetarian Capsule

NO Yeast, Wheat, Sugar, Salt, Soy, Dairy, Fish, Animal Derivatives, Preservatives, Artificial Colors or Flavors Added.

GMO-Free

Kosher - Halal - Certified Ingredients

Consult your physician prior to use if pregnant or nursing.

Simple. Natural. Effective.

emzTM
A Natural Premium Life Product

Good nutrition is key to good health

Healthy food choices are a great start to promoting health; however this represents just the first step. To benefit from all of the nutritious components of our food, a healthy digestive system is needed. Today, dozens of factors including genetics, stressful lifestyles, poor diet, processed foods, and the environment all influence digestion. Supplementing a healthy diet and lifestyle with digestive enzymes is the next step in health.

Our comprehensive digestive enzyme formula includes highly active enzymes with a broad range of specificities needed to digest the foods most commonly found in the human diet.* Once the food is broken down into simple nutrients, the body can then assimilate these for energy, growth, and repair.*

You are what you absorb!

The Multi-Enzyme complex that is the key component in our EMZ is what allows the body to optimize its breakdown of Fat, Dairy, Gluten, Protein, Carbohydrates, Fiber, and other Nutrients. This helps to avoid over-eating and make sure the body takes in maximum nutrition from anything we eat, without having the bloated or heavy feeling usually resulting from a lunch or dinner. More than what you eat, it is what you absorb! For a truly healthy lifestyle, the body must be able to absorb enough nutrients to maintain itself, and a lack of absorption leads to deficiency. This causes stress on most of the major organs in the body, stress on the intestinal tract, and even stress on the immune system.

A happy cell is a healthy cell

The cause of symptoms like heartburn, acid reflux, bloating, indigestion, gas and constipation is due to the lack of Enzymes in your diet. Even if you eat healthy foods, the Enzymes in food are immediately destroyed when exposed to heat. A lack of Enzymes also stops your body from absorbing important vitamins and minerals that are found in the foods you eat. The ZoiVi EMZ formula is designed to supplement the lack of enzymes in the body, allowing for maximum nutrient absorption.

When you are hungry, it is your body telling you that it needs nutrition, not food. Most people over-eat, or are hungry again after a meal because their body is not able to absorb enough nutrition from the meal. EMZ helps to increase absorption of these nutrients by helping the body break down food faster.

The faster you absorb nutrition, the faster you eliminate hunger and cravings, and the better energy you naturally have due to better absorption of nutrients. Enzymes are needed by everyone, especially for fitness and weight management support.

"I am intolerant to gluten and lactose, can I benefit from the ingredients in the EMZ?"

Yes. Food sensitivities and intolerance is a sign that your digestive system is unable to breakdown certain foods. EMZ is made up of enzymes that support the digestion of the foods you take in. The ZoiVi EMZ formula contains the lactase and protease enzymes, which support the breakdown of the protein gluten found in many grains, foods and condiments. Lactase is an enzyme which aids the breakdown of lactose, found in dairy products, into simple sugars that your body can use.

How it works (Overview of Mechanism of Action)

Normally, the food we eat are the source of the enzymes we would need for our system to function. The issue is in the food itself, which most often is cooked. The process of cooking kills all of the important enzymes and nutritional value, leaving literally "empty" food. Simply put, most of the food we eat is dead, and lacks the enzymes we need to maintain **optimal** daily functions of our systems.

When we lack the enzymes to break down certain nutrients, our bodies are unable to absorb the needed nutrition. This causes a deficiency, and causes our bodies to send signals telling our brain to keep eating. This often leads to over-eating and weight gain.

By supplying the enzymes we are naturally lacking, we support our bodies' ability to break down and absorb nutrients. Improved nutrient absorption will reduce cravings, boost metabolism, enhance digestion, and support improved elimination of wastes. This process also helps people manage their weight. When we eat food, the liver breaks down the calories in the food from the enzymes that are supposed to be in the food. But if there are not enough enzymes in the meal, then any extra calories go into storage, which is what we know as fat. Fat is just leftover calories that you can actually grab!

For measure, every 3500 calories is equal to one pound of pure fat! So if there is any extra fat on the body that we want to get rid of, we just have to make it easier for our body to get rid of the extra calories. This is the functional power of the ZoiVi EMZ.

For Example: The average cheeseburger meal with fries and shake contains about 2000 calories, and contains enough enzymes to breakdown about 50% (Half) of the calories in there. Leaving us with 1000 calories that our body puts away into storage. The first areas the body uses to store the remaining calories are the waistline, thighs, buttocks, arms, chin, and belly.

X 2 ≈ 1 lb. of Fat

The EMZ enzyme blend is designed to meet the changing demands of your body day by day. While some companies separate ingredients in an attempt to focus on specific needs, our formula is designed to give the body everything it needs all the time.

Our proprietary blend of enzymes helps maximize nutrient absorption. Additional vitamins, minerals, and trace minerals are all included too! The innate wisdom of your body recognizes the needs that are ever-changing and is able to utilize the vital components wherever and whenever it is necessary...as long as they are available. We help make them available simply and effectively.

Goodbye:
Bloating
Indigestion
Heartburn
Constipation
Gluten Sensitivity
Lactose Sensitivity

We use only the highest quality and purest form of every ingredient manufactured in FDA inspected facilities to maximize your results. For optimal benefit, combine with other ZoiVi products.
